Fax: +86 21 5298 5492
E-mail: duxf@junhe.com

Practice Area:

Patent
Telecommunication, Information
Technology and Hi-Tech

Professional Experience

Mr. Du Xiaofeng (Fred) joined JunHe in 2016 and specializes in patents. This includes patent prosecution, intellectual property due diligence, patent invalidation and infringement analysis. Prior to joining JunHe, he worked at another leading patent law firm for four years.

Mr. Du has a background in the fields of semiconductors and electronics, and he has experience drafting and prosecuting Chinese, U.S. and Patent Cooperation Treaty (PCT) patent applications for enterprises and academic institutions across China and the United States. His practice covers industries such as semiconductors, integrated circuits, smart devices and communications. Mr. Du has also represented clients in FTO analysis and intellectual property due diligence in the fields of medical devices, mechatronics and artificial intelligence. He has also handled patent invalidation and litigation cases involving semiconductors and smart devices and conducted evaluation and stability analysis for standard essential patents.

Education

Bachelor of Science (Electronics Science and Technology), Wuhan University
Ph. D. (Microelectronics and Solid State Electronics), Graduate University of the Chinese Academy of Sciences.

Professional Associations

Mr. Du is a licensed attorney in the PRC and a registered patent agent at the China National Intellectual Property Administration.

Language Skills

Mandarin and English.
