Environmental, Health and Safety Compliance

JunHe is one of the pioneers in the area of EHS law practice. JunHe provides full-life cycle and well-rounded legal services in the EHS area for their clients, including project development and the establishment of joint ventures (such as obtaining approvals and necessary permits for construction projects), M&As and the daily operations of manufacturing enterprises. The team also has expertise in the areas of EHS compliance evaluation and consulting, EHS training, government investigations and administrative hearings, and reconsideration and litigation in connection with government penalties. JunHe's EHS team serves a broad range of clients in the mining, chemical, material, medical, aircraft, automobile, semi-conductor, engineering technology and testing, food and consumption industries.

JunHe maintains close working relationship with top law firms around the world, including routine cooperation with Latham & Watkins' global environmental practice group. JunHe also collaborates with Latham & Watkins, the Environmental Law Institute and the Policy Research Center for Environment and Economy under the Ministry of Ecology and Environment of China in an initiative for the establishment of China International Business Dialogue on Environmental Governance (CIBDEG) and the organization of relevant Roundtables and activities. In 2019, CIBDEG won the "Innovation in Collaboration" award by the Financial Times Innovative Lawyers.

JunHe's provision of legal services covers the following aspects:

- Special EHS compliance audits and supply chain EHS compliance audits
- Legal advice on project establishment and permits related to closure, suspension, merger and transfer, environmental impact assessment, safety assessment and other regulatory formalities
- Legal advice on the zoning issue and the evaluation of relocation risks
- Legal advice on the regulation of new chemicals and special substances
- Legal advice on the regulation of dangerous chemicals and major hazard sources
- Legal advice on the circulation and disposal regulations of solid waste, hazardous waste and other types of waste
- Legal advice on the regulation of volatile organic compounds (VOC)
- Legal advice on the conservation and regulatory requirements for endangered wildlife
- Drafting and legal advice on agreements related to work safety and fire safety management
- Legal advice on the prevention and regulation of occupational diseases
- Dealing with environmental pollution incidents and safety production incidents

JunHe, founded in Beijing in 1989, is one of the first private partnership law firms in China. Since its establishment, JunHe has grown to be a large and recognized Chinese law firm. The firm has fifteen offices around the world and a team comprised of more than a thousand professionals.

Their (JunHe's) services are very professional and offer value for money. Their feedback is usually timely, and they can effectively identify and provide feasible risk prevention measures.

——Chambers Greater China Region
