

JunHe LLP is a full-service firm with a market-leading projects and infrastructure team. Its expertise in large PPP projects remains in demand from a wide range of clients, including domestic and international energy corporations as well as local governments

——Chambers Greater China Region

Infrastructure and Project Finance

The achievements of our infrastructure and project financing team can be seen in many recent investments and developments such as the building of roads, bridges, water and power facilities that cover basic public needs. It is also reflected in the rise of environmental protection to improve the quality of life. The attracting of foreign investment, the adoption and standardized implementation of project financing and the PPP model all point to the team's development. Other noteworthy developments include the rise in the "going out" of Chinese enterprises, the gradual implementation of the "One Belt One Road" initiative, and the necessary adjustments undertaken in the development of "dual circulation".

Our Team

JunHe's infrastructure and project financing team is comprised of more than 30 lawyers, including over 10 partners and associates who are based in our Beijing, Shanghai, Guangzhou, Shenzhen, New York and other offices. This team includes lawyers with considerable overseas experience in the areas of infrastructure and project financing gained at prestigious international law firms or corporations, as well as local talent who have gained extensive experience due to economic development in large domestic projects. Our partners and associates all have over a decade of experience in this field and have extensive expertise and knowledge.

Due to our consistent outstanding performance and testimonials from our clients, our infrastructure and project financing team is successively recognized as Band One and we have been named as a 'Top-tier Recommendation' law firm in respect to infrastructure and project financing practice in China by Chambers Asia-Pacific, Asia Pacific Legal 500, Asia Law & Practice and the International Financial Law Review.

Core Areas of Practice

- **Power:** thermal power, wind power, hydropower, nuclear power, solar power, garbage/biomass power, hydrogen energy, energy storage, smart energy;

JunHe, founded in Beijing in 1989, is one of the first private partnership law firms in China. Since its establishment, JunHe has grown to be a large and recognized Chinese law firm. The firm has fourteen offices around the world and a team comprised of more than a thousand professionals.

The team (JunHe) is highly experienced in advising clients on transportation work, including rail and expressway projects. The law firm has notable experience advising on cross-border projects and outbound investment mandates. Clients also seek its advice on EPC contract disputes.

——Chambers Greater China Region
